Media Release

Billings Chamber's Jennifer Reiser, IOM Graduate from Institute for Organization Management A Leadership Training Program Produced by the U.S. Chamber of Commerce Foundation

For Immediate Release

Billings, MT, July 20, 2016: The Billings Chamber of Commerce is pleased to announce Chief Operating Officer Jennifer Reiser graduated last week from the U.S. Chamber of Commerce Institute for Organization Management, a professional development program. Reiser is now recognized as "Jennifer Reiser, IOM." Awarded to all graduates of the Institute program, the IOM Graduate Recognition signifies the individual's completion of 96 hours of course work in nonprofit management. Reiser began working toward the IOM in 2013 completing her instruction at West Institute, Loyola Marymount University in Los Angeles, California this month.

"Institute graduates are recognized across the country as leaders in their industries and organizations," said Raymond P. Towle, IOM, CAE, the U.S. Chamber Foundation's vice president of Institute for Organization Management. "These individuals have the knowledge, skills, and dedication necessary to achieve professional and organizational success in the dynamic association and chamber industries."

Reiser said, "It was a privilege to learn from the nonprofit experts leading this program and to be able to work with fellow nonprofit professionals from across the nation." Reiser added, "The nonprofit landscape is ever evolving and if we don't continue to better ourselves in this industry, our communities and missions will suffer."

Since its commencement in 1921, the Institute program has been educating tens of thousands of association, chamber, and other nonprofit leaders on how to build stronger organizations, better serve their members and stakeholders, and to become strong business advocates. Through a combination of required courses and electives in areas such as leadership, advocacy, board governance, marketing, finance, and membership, Institute participants are able to enhance their own organizational management skills and add new fuel to their organizations, making them run more efficiently and effectively.
