

Goals

Each year dozens of local business executives join the Billings Chamber of Commerce Leadership Billings program. This program works to facilitate the sharing of knowledge and expertise among leaders of area businesses and organizations. Through this valuable course, participants gain a clearer perspective on the business climate and the community in general. With keynote speakers, panel discussions, experimental exercises, problem solving and site visits, participants have an opportunity to:

- Gain insight into the local economy
- Explore the city's history
- Interact with business, government & educational leaders
- Build & develop leadership skills
- Learn more about pressing community issues

Not only do participants learn more about the "insides" of the local business community and climate, but they also build relationships that, in the end, can create a stronger business voice for our region. Group members explore opportunities to work together as a community, which is extremely important as the city moves forward.
