

## **MISSION:**

Veteran's Navigation Network (VNN) mission is to facilitate a smooth transition for our Nation's Service Members, from military service to civilian life.

The successful transition of our Nation's Heroes will create success within our communities through the years of leadership and life experience that they gained while serving. This will help not only our community, but our Country as Veterans Navigation Network continues to spread throughout Montana and beyond.

**VETERANS NAVIGATION NETWORK**

## WHAT WE DO

Based in Billings, Montana, we work diligently to assist transitioning veterans from service to civilian life, by creating a framework of support, accountability, and comradery through peer to peer mentorship and resource navigation.

### The Network:

There are many organizations in Montana that provide services to veterans, and do a great job of it.

Instead of reproducing the services that are already out there, our team will help the veterans we serve find and utilize these services, at their side the entire time.

## HOW YOU CAN HELP:

### Volunteer:

Whether you are a veteran or a civilian, we can always use volunteers. Please contact us with your interests in volunteering, and we will help to make you a part of the solution that is needed to help our veterans during their transition into civilian life. There are many needs that require attention, and your help will be greatly valued.

### Donations:

We rely heavily on donations and support from our community to accomplish our mission. Your generosity will be greatly appreciated, and since we are also a 501 (C) (3) entity, your contribution will also be tax deductible. If you are interested in donating, please contact us directly, or do so online at **[veteransnavigation.org](http://veteransnavigation.org)**.
