Billings Chamber Announces "Chamber Reimagined" Initiative

For Immediate Release

Billings, Mont., June 19, 2026 The Billings Chamber of Commerce will undergo a comprehensive evolution designed to better serve the business community and the region it represents, starting in June 2026.

"The Chamber, Reimagined" is a year-long initiative that includes a building remodel, new logo and brand identity, redesigned website, updated materials, enhanced member benefits and new strategic initiatives. All of which are aligned with the purpose of supporting Chamber members and fostering prosperity of business and community.

The most visible change is a complete remodel of the 40-year-old chamber building at 815 South 27th Street, behind the iconic bronze cattle drive monument. To serve Chamber members better and accommodate the needs of staff, the Billings Chamber partnered with A&E Design and Jones Construction for a complete remodel of the building.

The remodeled building will transform the Chamber into a modern, collaborative hub that reflects the way business is done today and positions the Chamber to better serve members for years to come. This week Chamber staff moved out of the building to make way for construction. Staff will work remotely during construction, with temporary office space at Big Sky Economic Development and Rock 31, located at 201 North Broadway. Construction is expected to be completed in November 2026.

"This is not change for the sake of change," says President & CEO of the Billings Chamber of Commerce John Brewer. "This is about ensuring the Chamber is equipped to meet the needs of today's businesses while positioning Billings for long-term success."

Throughout 2026, the Chamber will roll out these improvements in phases, culminating in a full public launch in December. Each step reflects commitment to:

- People-supporting workforce development, leadership, and quality of life
- Prosperity-strengthening businesses and economic opportunity
- Community-investing in the vitality and future of the Billings community

"The Chamber has a 139-year proud history of service," adds Billings Chamber Board Chair Jess Peterson. "This evolution ensures we remain a strong, trusted, and forward-looking partner for our members and our community."

During the construction and the launch of the "Chamber Reimagined" initiative, the Billings Chamber staff will continue their scope of work, meet the objectives of community initiatives and serve their 1,000 business members that employ over 45,000 people.
